

BRISA® COLLECTION

Take a deep breath.

With a revolutionary ventilation system that actually breathes, the Brisa Collection represents a breakthrough in polyurethane technology. The first of its kind, you've never before felt such comfort and luxury in a leather-like surface—polyurethane or otherwise. You really have to experience it to fully appreciate it. But once you do, you'll gladly make Brisa a welcome part of your life.

Brisa® Collection

Breathable Comfort and Durability

A unique ventilation system provides breathability while an innovative aero-foam cushion provides outstanding comfort. Brisa® has the durability and strength to stand up to your active lifestyle. It meets or surpasses industry wear standards including bond strength, seam strength and tear strength. Brisa exceeds 200,000 double rubs on the Wyzenbeek abrasion test method showing no wear and tear—that's 6X heavy-duty industry standards.

You've Only Touched the Surface

Brisa stays cool to the touch, even when exposed to sunlight. Soft and supple, Brisa is tough enough to withstand kids and pets. Because it's inherently stain-resistant, no toxic aftercare is required to keep Brisa looking its best.
