

2-Hole Fastener Stud Marking Template

This template helps you align the holes in your two-hole fastener stud for accurate marking and cutting. Template is compatible with all Loxx® and DOT® Twist-Lock two-hole bases.

How to Use: Choose which two-hole stud you have referring to the template and punch out the holes. Cut the template at your desired distance from the fabric edge. Align the template against the fabric edge and mark the punched-out holes with a fabric marking pencil. Repeat as necessary across the fabric edge. Cut holes using a hole cutting tool and install the fasteners.
