

# Limited 10-Year Warranty

The CDI Furler is warranted to remain functional for (10) years from date of purchase. You must be the original purchaser of the unit. If, during this period, any part becomes non-functional or has a manufacturing defect, CDI will repair or replace it, free of charge, except for freight. Furling systems must be assembled according to owner's manual instructions. A (6) year warranty remains on all halyards and systems purchased prior to 2015. No maintenance is required to keep the warranty in force.

## **This Warranty Does Not Cover:**

- All systems with other manufacture accessories or components will void all warranties instantly.
- A shipwreck, collision and acts of God.
- The warranty is void if the mast is not fixed in place vertically at all times while the boat is in the water. Tipping the mast forward to pass under bridges, power lines or other low clearance obstructions voids the warranty.
- Collision while trailering.
- Being dragged on the ground while de-masting.
- Any damage caused by improper storage or handling when not at sea. Luffs must be stored flat and straight, or warranty is void. Kinks, twists, bends and breakage due to the luff not being stored flat and straight are not covered. Coiling and twisting the luff either to remove kinks and bends, or for transport and storage in other than in a flat and straight condition voids the warranty.

## **Warranty Process:**

The warranty process is only a few easy steps.

1. Send a photo to [info@sailcdi.com](mailto:info@sailcdi.com) of your current system and damaged item.
2. Send proof of purchase.

## **For Questions Regarding the Warranty Please contact CDI:**
