

EverSoft™ Care & Cleaning Instructions

To learn how to care and clean your EverSoft fabric, check out the various methods below. Then view our stain chart to see which cleaning method is recommended depending on your specific stain.

Method 1:

- Wipe spills with a clean, dry towel, soft cloth or napkin.
- Use an art gum ruler, cleaning eraser/pad or cornstarch to fight the stain. If using cornstarch, be sure to remove any excess with a straight edge.

Method 2:

- Clean with soapy water, such as a mix of 1 teaspoon mild soap (Woolite[®] or Dawn[®]) to 1 cup water.
- Blot excess moisture with a clean, dry towel, soft cloth or napkin.
- For stubborn stains, use rubbing (isopropyl) alcohol.
- Rinse thoroughly with water until soap is completely removed.
- Let fabric air-dry.

Method 3:

- Clean with 303[®] Spot Cleaner.

- Blot excess moisture with a clean, dry towel, soft cloth or napkin.
- For more stubborn stains, use rubbing (isopropyl) alcohol.
- Rinse with water until any cleaner is completely removed.
- Allow fabric to air-dry.

Method 4: Heavy Cleaning

- This method is for mildew or other stubborn stains.
- Make a solution of 1 cup bleach and 1/4 cup mild soap per one gallon of water. If the stain is severe the amount of bleach can be increased.
- Apply to fabric and let soak for 15 minutes.
- Use a nonabrasive sponge, towel or soft bristle brush to remove the stain.
- Rinse thoroughly with water to remove soap residue.
- Let fabric air-dry.
- Acetone may be used to remove nail polish.

EVERSOFT STAIN TREATMENT CHART

BBQ SAUCE	Method 2 or Method 3
BALLPOINT PEN INK	Immediately wipe with 70% rubbing alcohol. Rinse with clean water and pat dry.
CALAMINE LOTION	Method 2
CHOCOLATE	Method 2 or Method 3
COLA	Method 2 or Method 3
GEAR LUBE	Method 2 or Method 3
INK	Method 1 (Use cleaning eraser or sponge pad)
KETCHUP	Method 2 or Method 3
MILDEW	Method 4

EVERSOFT STAIN TREATMENT CHART

MOLD	Method 4
MOTOR OIL	Method 3
MUSTARD	Method 2 or Method 3
RED WINE	Method 2 or Method 3
SALSA	Method 2 or Method 3
SOIL, EYE SHADOW, CRAYON	Wash with warm soapy water and rinse. Use a mild household cleaner such as Formula 409® Multipurpose Cleaner. Rinse with clear water and pat dry.
SUNSCREEN LOTION	Method 2 or Method 3
TAR/ASPHALT, SHOE POLISH, GREASE	Remove immediately. Dampen a clean cloth with mineral spirits and rub gently from the outside edge of the stain toward the center. Rinse with mild soap and water. Then rinse with clear water and pat dry. This is the only situation in which mineral spirits can be used sparingly.

Cleaning Tips:

- Once per month, hose your vinyl off with clear water to prevent dirt from becoming deeply embedded in the fabric and eliminate the need for more frequent cleaning.
- While this fabric is treated for stain resistance, we cannot always guarantee that stains can be removed if they are not cleaned properly and in a timely manner.
- Always use nonabrasive towels, soft cloths or napkins to avoid scratching your vinyl.
- Do not use abrasive powders, steel wool, industrial-strength or solvent cleaners, vinyl conditioners or vinyl protectors.
- Never use undiluted bleach on your vinyl.
- Before cleaning, always test a small patch of the vinyl in an inconspicuous place.
- While EverSoft is treated for mildew resistance, mildew may grow on dirt and other substances that are not properly removed from the vinyl.
- Do not apply any solvent-based cleaning solutions to EverSoft, as it may cause aging and degradation. This includes chemicals such as liquid fuels, paint thinner, mineral spirits and turpentine.
