

Fortress Performance Indoor/Outdoor Care & Cleaning

For Normal Stains:

1. Remove any loose dirt.
2. Prepare a mixture of cold to lukewarm water (do not exceed 100°F) and mild soap.
3. Rub in the mixture with a soft-bristle brush and allow the mixture to thoroughly soak into the fabric.
4. Rinse well with water and air-dry. Do not machine dry.

For Stubborn Stains:

1. Remove as much surface dirt as possible.
2. Soak fabric for 1 hour in a mixture of 1 gallon cold water, 1/2 cup bleach and 1/2 cup mild soap.
3. Rub in the mixture with a soft-bristle brush and rinse thoroughly with cold to lukewarm water and air-dry.
4. Never use water over 100°F. Do not machine dry.

Detergents can be used on Fortress acrylic fabric without harm. It may, however, remove some of the water- and stain-resistant properties. If this is important to you, a simple spraying of a post cure fluorocarbon will restore these properties. Please follow the instructions on the package. These sprays can be obtained through a dry cleaning supply store or stores that sell marine related products.
