

Geobella™

Beautiful Earth-Friendly Fabrics

THE MOST ENVIRONMENTALLY-FRIENDLY SYNTHETIC FABRIC

- GeoBella™ Cushion Fabrics are composed entirely of olefin yarn, the only yarn, synthetic or natural, that is recycled from post-industrial waste.
- GeoBella yarn requires lower energy and water consumption and the process yields little by-product, allowing the least waste and environmental impact of any synthetic fabric today.
- It is recyclable and can be re-extruded up to 10 times. The incineration of GeoBella produces more usable heat energy than that of other synthetics, and the smoke produced during incineration is no more harmful than smoke produced by burning wood.

PERFORMANCE

- GeoBella fabrics are lightweight yet extremely strong and durable, passing all industry standards for the cushion market under TCFFA guidelines.
- GeoBella fabrics are moisture-wicking, quick to dry and resistant to bacteria, mold, mildew and odor. They are easy to clean with mild detergent or even a 50/50 bleach and water solution.
- Whether used indoors or outdoors, by a sunny window or around a swimming pool, these fabrics are fade resistant.
- GeoBella fabrics are especially suited to high-traffic areas because of their stain resistance as well as their high level of durability.

BEAUTY

- With soft olefin yarns woven throughout, these fabrics have a luxurious texture that begs to be touched.
- High design and endless color combinations deliver the superior quality on which Phifer fabrics have built their reputation.

WARRANTY

- The warranty covers the fabric becoming non-functional due to the loss of dimensional stability from exposure to conditions including sunlight, mildew, rot and normal atmospheric conditions.
- The warranty does not cover damage to the fabric from any source nor does it cover gradual fading or discoloration from atmospheric pollution or other debris.
- This warranty remains in effect for 3 years from the date of purchase.
- Phifer Incorporated will provide new fabric, free of charge, to replace the non-functioning fabric. This warranty does not cover the cost of labor or other consequential or incidental expenses.
