ABOUT STAR RATINGS

Breathability

Fabrics that naturally breathe well have a rating of 3 stars or higher. The level of breathability is determined by how easily air can pass through the fabric. Breathability should always be considered in fabric selection, especially in consideration of your application. With boat covers and airtight enclosures, if the fabric doesn't breathe well, mold and mildew can become a problem unless the cover is vented. However, in the case of awnings and upholstery fabrics, being non-breathable does not present a problem and can make for a more water-resistant cushion or better rain protection. Fabrics that don't naturally breathe at all (i.e., waterproof) are denoted with a dash.

UV Resistance

Perhaps the most important factor in an outdoor fabric. A UV rating of 3 stars classifies the fabric as UV resistant. A fabric with a star rating of 4-5 stars is considered highly UV resistant. These fabrics are great for outdoor use with 5 stars being the best of the best. Highly UV resistant fabrics will last longer when consistently exposed to sunlight.

Water Resistance

A fabric with a 3-star rating in this category is classified as water resistant. A fabric with 4 stars is highly water resistant. A fabric with a 5-star rating in the water resistance category means it is completely waterproof. Waterproof fabrics don't let water soak into the fabric, no matter how long they are left outside. These are typically only vinyl fabrics. Water resistance and breathability are often trade-offs. Typically fabrics that don't breathe well are more water resistant and those that do not breathe at all are considered waterproof (generally vinyl-coated or laminated).

Colorfastness

Fabrics with excellent colorfastness have a rating of 4 or 5 stars. Colorfast fabrics stay bright and the colors do not fade or bleed. A fabric's colorfastness is determined by how well it holds its color over years of sun exposure, rain and snow.

Abrasion Resistance

Fabrics that have very good abrasion resistance have a rating of 3 stars while fabrics Sailrite considers highly abrasion resistant have 4 or 5 stars. Abrasion-resistant fabrics that are preferred for marine and outdoor cushions are usually heavy, stiff and often coated with vinyl or other resins. Outdoor upholstery fabrics have high abrasion resistance but with a softer hand.

Cleanability

Fabrics that are easy to clean and release dirt well have a rating of 3 stars or higher. Cleanability is especially important in outdoor fabrics because mold and mildew can grow on dirt that gets trapped in the fabric's weave. Fabrics with a single-side coating do not release dirt well and should be frequently inspected and cleaned.

AWNINGS

Stay cool and shaded while at anchor with a boat awning (On a motor yacht, these are called sail shades.). You'll want to make your custom awning with fabric that is UV resistant and colorfast to protect you and preserve the look of the awning. A water-resistant or waterproof awning is also a great choice to keep you dry on rainy days. A mesh awning is a great for sun protection while still allowing light to filter through. For your sailboat awning, we suggest looking at Sunbrella Marine Grade, Top Gun 1S, Weblon Regatta, Stamoid, or Top Notch 9 and 1S. For motor yachts, we suggest Polytex, Parasol and Phifertex.

BIMINIS & T-TOPS

Be comfortable in your cockpit with a sturdy, shading bimini or T-top. We have a great selection of fabrics to choose from to get the perfect look and function for your top. A combination of high water resistance, UV resistance and colorfastness makes for a great bimini or T-top fabric. Being easy to clean is also a huge plus! Since these tops are open on all sides, breathability isn't too important, so you can use an exterior vinyl like Herculite Riviera, Weblon Regatta or Stamoid. Popular woven canvas fabrics include Sunbrella Marine Grade, Top Gun and Top Notch.

BOAT COVERS

From mooring covers to your winter storage cover, we have the perfect fabric for your next boat cover project. There are many considerations to make when choosing a cover fabric and it's up to you to decide which factors are important to you. Consider whether you want to add vents to a waterproof fabric or use a water-resistant fabric that will breathe. Also think of your climate and decide if you should prioritize UV resistance or abrasion resistance. If you put your cover off and on frequently, be sure to look at fabric weight too. See our "Selecting the Right Marine Cover Fabric" (#300096XHT) blog for a more in-depth look.

BUG PROTECTION

Keep out mosquitoes, no-see-ums and other pesky insects with high-quality netting material. Our tightly woven mosquito netting is soft and can be draped, but it is also deceptively strong so it will last through many summer adventures on your boat. Fiberglass mesh is stiffer and more appropriate for enclosure screening. Our fabric netting was designed to be an effective shield against pests without obstructing your view.

Note: Many boaters use Phifertex mesh for bug protection enclosures. It works; however, its weave is a bit large for no-see-ums, so we don't include Phifertex in our list. Yes, Phifertex is more durable, which is often a good trade-off if you are not concerned with no-see-ums. See our "Windshield Covers" section for details on Phifertex.

CURTAINS

Make your cabin feel more like home by adding curtains! Not only will curtains make your cabin feel more inviting, they'll also offer privacy and another means of climate control. You can choose a decorative patio fabric — some of our favorites include Sunbrella Upholstery and Bella-Dura, among others — or one of our blackout fabrics from Roc-Lon or Europatex. Visit [Sailrite.com](https://www.sailrite.com) to explore our selection of blackout fabrics.

Sunbrella® Upholstery	Acrylic	Varies	★★★★	★★★	★★★	★★★★	★★★★★	★★★★★	\$\$ - \$\$\$\$

CUSHIONS, EXTERIOR

For exterior cushions, durability is the name of the game. The most common choice for exterior cushions on pontoons or powerboats is a seating vinyl. These are fabrics made with seats in mind. They are waterproof and offer great UV resistance. Sunbrella Horizon is an excellent option along with other great brands like EverSoft, Morbern and Naugahyde. For the cockpit cushions on your sailboat, you could also use a woven fabric like Sunbrella Marine Grade, a mesh like Phifertex Plus or a combination of both. Softer and more decorative options include Bella-Dura, Geobella and Sunbrella Upholstery, among others.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

Ultraleather® Promessa® Outdoor (covered applications)	Polyurethane (polyester and rayon backing)	11.5 oz.	★	★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$\$\$\$

CUSHIONS, INTERIOR

Inside your boat your cushions are more protected, so you can opt for comfort and style over total function. You do still want to keep mildew from growing, so we recommend avoiding any natural fibers like cotton. Choose a synthetic material instead like acrylic or polyester. If your cabin often gets damp, you might want to choose a water-resistant fabric. Our top picks include brands like Sunbrella Upholstery, Ultraleather Promessa Outdoor, Geobella, Bella-Dura and Ultrasuede, just to name a few.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

DODGERS

Building your own dodger is an investment of both time and money, so it is a place where we feel it's important to invest in a high-quality fabric as well. For a dodger, look for fabrics with high UV resistance and colorfastness so they'll hold up and look great for years to come. Water resistance is also a must. Choose a highly water-resistant fabric like Sunbrella, Top Gun or Top Notch 9, or a waterproof vinyl like Herculite Riviera or Stamoid.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Herculite® Riviera®	Vinyl-Laminate (PVC)	12.5 oz.	—	★★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$

ENCLOSURES

For a full boat enclosure, you'll want to invest in a high-quality marine fabric with high ratings for UV resistance, water resistance, colorfastness and abrasion resistance. A full boat enclosure is a big DIY project to undertake, so you want a fabric that will last for years on your boat, whether you're a liveaboard or weekend cruiser. If choosing a waterproof vinyl for your boat enclosure, your application may require ventilation since the fabric is not breathable. Sunbrella and Stamoid are popular choices among boaters. These brands have coordinating binding and facing tapes, which are DIY time-savers.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

LIFELINE NETTING

Lifeline Netting is an important part of your boat safety protocol. It keeps children, pets, crew members and equipment on board. Our knotted safety line netting is constructed from Dupont #36 Twisted Nylon Twine and contains UV inhibitors to promote longer life and to prevent rot. It has a 350 lb. minimum tensile strength and can be stretched to accommodate a rail height of up to 32 inches.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Lifeline Netting	Dupont #36 Twisted Nylon Twine	3.9 oz.	★★★★★	★	★★★★★	★★★★	★★★★★	★★★	\$

PILLOWS, EXTERIOR

Exterior pillows experience rain and overspray. Therefore, you need a fabric that can handle the demands of an outdoor marine environment. Look for fabrics with high breathability and cleanability. Fabrics with excellent UV resistance, abrasion resistance and colorfastness will remain looking like new for years with proper care and maintenance. Some of our favorites include Sunbrella Upholstery, Bella-Dura and Geobella.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Bella-Dura®	BD Polyolefin	Varies	★★★★	★★★	★★★★	★★★★	★★★★★	★★★★★	\$\$\$\$

Sunbrella® Upholstery	Acrylic	Varies	★★★★	★★★	★★★	★★★★	★★★★★	★★★★★	\$\$ - \$\$\$\$

PILLOWS, INTERIOR

Unlike exterior pillows, interior pillows in your boat cabin are more protected from the elements. This means you can choose your interior pillow fabric based on style and color, rather than solely on quality and performance. However, you still want a fabric that's breathable with high water resistance to prevent the growth of mold and mildew. That's why you can't go wrong with solution-dyed performance fabrics. If you're looking for a high-end, luxurious faux suede, Ultrasuede is a great choice.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

Ultrasuede® HP	Polyester/Polyurethane	11.1 oz.	★★★★	★★★	★★★★★	★★★	★★★★	★★★★★	\$\$\$\$

SACRIFICIAL SAIL COVERS

To protect your roller furling sails from the harsh UV rays of the sun, we recommend installing a sacrificial sun cover. For this job, look for a lightweight fabric with high UV resistance. We highly recommend Sunbrella Marine Grade or Top Notch fabrics for these applications.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Dacron® 5.5 oz. UV Coated	Polyester	5.5 oz.	★	★★★	★★★	★★★	N/A	★★★	\$\$\$

SAIL COVERS

When making a cover for your mainsail there is one fabric choice that stands above the rest and that's Sunbrella Marine Grade. This fabric is breathable to prevent the growth of mold and mildew and has excellent UV resistance. This 100% solution-dyed acrylic will stay colorfast for longer than any similar fabric.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Sunbrella® Marine	Acrylic	9 oz.	★★★★	★★★★	★★★	★★★★★	★★★★★	★★★★★	\$\$\$
Top Notch® 9	Polyester	9 oz.	★★★★	★★★★	★★★★★	★★★★	★★★★	★★★★	\$\$

SPINNAKER SOCKS

Spinnaker socks are tapered sleeves that make setting and dousing a spinnaker easy, and they also protect the sail. Spinnaker socks are made from a polyester mesh fabric with good drainage, which allows the sail to dry when stored. Our polyester mesh fabric is easy to work with and sew.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Mesh Polyester	Polyester	4.1 oz.	★★★★★	★	★	★★	N/A	★	\$

TARPS

Mostly found on commercial ships to protect equipment, our go-to material for a marine tarp is Shelter-Rite vinyl. This is the best choice for long-wearing tarps in all environments as it offers the best durability of all the fabrics we offer. It is a heavy fabric, which makes it best suited for tarps and not other cover applications. If breathability is required, Top Notch 11.5 is our most durable woven fabric.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Shelter-Rite®	Vinyl-Coated Polyester	18 oz.	—	★★★★★	★★★★★	★★★	★★★★	★★★★★	\$\$
Top Notch® 11.5	Polyester	11.5 oz.	★★★★	★★★★	★★★★★	★★★★	★★★★	★★★★	\$\$

TRAMPOLINES

Catamaran trampolines provide additional surface area for your multihull and make for a relaxing seating and lounging area. We offer an assortment of trampoline mesh in different weights and drainage hole sizes to meet your specific needs. Trampoline Mesh Super is a very strong, durable material intended for extra-large trampolines. Trampoline Mesh Heavy Duty is ideal for medium to large tramps. Unlike other tramp mesh that can be folded over and hemmed, Heavy Duty requires a sewn finished edge using Shelter-Rite vinyl or Shelter-Rite Tape. Trampoline Mesh Black is commonly used for Hobie Cat trampolines.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

UPHOLSTERY, EXTERIOR

When it comes to choosing a fabric for your exterior boat upholstery, there are several factors to consider. Vinyl fabrics are ideal for powerboat and pontoon upholstery and seating. We highly recommend our lineup of Morbern vinyls, EverSoft and Naugahyde. Sunbrella Horizon is an engineered synthetic leather designed to color match to Sunbrella Marine Grade for a cohesive look on your boat from top to bottom. If you prefer texture and pattern options over the ease of cleaning and water resistance inherent to vinyls and faux outdoor leathers, we have an excellent selection of durable woven performance fabrics. Vinyl (on polyester, welded to backing fabric and filled with polyester fiberfill)

UPHOLSTERY, INTERIOR

Inside your boat's cabin, you can sacrifice some of the important properties of an exterior upholstery fabric for a comfortable and soft fabric with a medium hand. Bella-Dura, Sunbrella Upholstery and Covington Outdoor are all solution-dyed fabrics that all deliver on style and performance. EverSoft vinyl features an incredibly soft and supple feel with the look of real leather for a high-end look inside your sailboat or yacht. Ultrasuede and Ultraleather are other high-end options for those seeking more luxurious and opulent living quarters.

WEATHER CLOTHS

Give yourself a little more shelter and privacy in your cockpit with weather cloths. For these fabric panels, we recommend a fabric that's durable, UV resistant and colorfast. Sunbrella Marine Grade and Top Notch are both great fabrics that come in a wide array of colors to give a little extra personality to your boat canvas. If you're looking for a vinyl, we recommend Stamoid Top.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

WINDSHIELD COVERS

Add privacy and reduce the harsh glare of the sun in your cabin with windshield covers. The most popular choice for light-filtering shades is using a vinyl mesh fabric like Phifertex Plus or Soltis 86. The vinyl coating makes these fabrics durable for the elements, and the mesh doesn't let others see in but lets you still enjoy your view and a bit of natural light. If you want even more privacy, you could opt for Sunbrella Marine Grade fabric shades instead. Evolution Block-It can be used as a liner to protect flexible clear vinyl (isinglass) when used under Sunbrella Marine Grade.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

AWNINGS

Enjoy your patio even in the height of summer with a shade-providing awning. For both stationary and retractable awnings, we recommend a water-resistant fabric with excellent UV resistance and colorfastness so it will hold up and look great even after lengthy sun exposure. Our choice awning fabrics are Firesist, Sunbrella Awning/Shade, Sunbrella Marine, SeaMark and Decorative Shade.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

BUG PROTECTION

Enjoy summer sunsets on your patio without the annoyance of mosquitoes, no-see-ums and other pesky insects. Our selection of tightly woven, high-quality mosquito netting material is soft and can be draped. Fiberglass mesh is deceptively strong and can be fabricated into window screens and door panels. Our fabric netting was designed to be an effective shield against pests without obstructing your view.

Mosquito Netting	Polyester	1.95 oz.	★★★★★	★	★	★★★	★★★★	★★	\$

COVERS

Protect your outdoor furniture with a well-made cover. For outdoor covers, we recommend durable fabrics with great abrasion and UV resistance that will stay colorfast in the sun. Breathability and water resistance are also important for covers and offer a trade-off. A waterproof fabric will be less breathable, but will be a very effective cover if a vent is added. A breathable, water-resistant fabric is a great cover combination for keeping items dry and also preventing mold and mildew growth. Evolution Block-It is an example of an inexpensive, breathable and soft cover cloth for outdoor furniture.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

CUSHIONS

Outdoor cushions for your patio furniture and porch swing should be comfortable and functional. Look for a fabric that's breathable and water resistant to prevent the growth of mold and mildew. If you keep your cushions outdoors all summer, you'll also want to look for a fabric with high UV resistance and colorfastness. If choosing a polyester printed fabric, keep in mind that the fabric will stretch slightly over time and appear faded. We only recommend choosing polyester for occasional use and bringing your cushions indoors when not in use.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE

DRAPERY

Make your outdoor living space feel like a secluded retreat with flowing outdoor drapery panels. For outdoor curtains and drapery, we recommend Sunbrella Sheer and Shadow fabrics. These choices offer excellent UV resistance and colorfastness, so they will look great for years to come.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Sunbrella® Shadow	Acrylic	7.17 oz.	★★★★★	★	★★	★★★★	★★★★★	★★★★	\$\$
Sunbrella® Sheer	Acrylic	4.1 oz.	★★★★★	★	★★	★★★★	★★★★★	★★★★	\$\$

PILLOWS

Add style, comfort and a pop of color to your patio furniture with decorative pillows. With our selection of high-quality fabrics, you don't have to sacrifice style for performance and durability. If you want to leave your pillows outside even when you're not entertaining on your patio, choose a solution-dyed performance fabric like Sunbrella Upholstery, Bella-Dura or Richloom Fortress. If you choose a polyester printed fabric, bring your pillows indoors when not in use as these fabrics will fade over time.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Bella-Dura®	BD Polyolefin	Varies	★★★★	★★★	★★★★	★★★★	★★★★★	★★★★★	\$\$\$\$

SHADE SAILS

Create a stylish, architectural shade sail to keep you cool and sheltered on your patio or deck. Shade sails, as the name implies, are often more about providing shade than protection from rain. Choose a fabric that is dimensionally stable and will stand up to the tension the application requires. We recommend using Parasol, Polytex, Phifertex or Soltis for shade sails.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Parasol™	Polyethylene	9.6 oz.	★★★★★	★★	★★★★	★★★★★	★★★★	★★★★	\$
Phifertex® Plus	Vinyl-Coated Polyester	16 oz.	★★★★★	★	★★★★	★★★★★	★★★★	★★★★	\$\$
Phifertex® Standard	Vinyl-Coated Polyester	11.3 oz.	★★★★★	★	★★★★	★★★★★	★★★★	★★★★	\$\$

Soltis® 86	Vinyl-Coated High-Tenacity Polyester	11.2 oz.	★★★★★	★	★★★★	★★★★	★★★★	★★★★	\$\$\$

SLING CHAIRS

Sling chairs are popular seating choices for porches, patios and pool areas as they are comfortable, water resistant and low maintenance. Because the fabric itself in sling chairs supports the weight of the occupant, these chairs require specific fabric made with this application in mind. We have two great brands to choose from for sling fabrics: Phifertex and Sunbrella Sling.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Phifertex® Jacquards	Vinyl-Coated Polyester	Varies	★★★★★	★	★★★★	★★★★★	★★★★	★★★★	\$\$\$

Sunbrella® Sling	Acrylic/Vinyl Blend	Varies	★★★★★	★★	★★★★	★★★★★	★★★★★	★★★★	\$\$ - \$\$\$\$

UMBRELLAS

Add shade and a pop of color to your outdoor living space with a patio umbrella. The fabric for an umbrella canopy should be water resistant to keep you dry, as well as UV resistant and colorfast to keep it looking great for years to come. We recommend using the Sunbrella Canvas Collection.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Sunbrella® Canvas	Acrylic	7.9 oz.	★★★★	★★★	★★★	★★★★	★★★★★	★★★★★	\$\$\$

UPHOLSTERY

Unlike pillows and cushions, outdoor upholstery fabrics are not removable — they've been stapled or tacked to the furniture pieces. They might even remain outside year-round (unless you bring the furniture inside). This means you need an upholstery fabric that can stand up to the harshness of the weather, temperature changes and more. You also want to look for a fabric that is stain resistant and easy to clean. Our top picks for outdoor upholstery fabrics include acrylics and olefins such as Sunbrella Upholstery, Geobella, P/Kaufmann Outdoor Performance (solution-dyed) and Richloom Fortress. If you prefer faux leather patio upholstery, Ultraleather Promessa Outdoor can be used in select outdoor applications including sunrooms and covered outdoor seating areas. Vinyls with 4-way stretch properties, including EverSoft and Sunbrella Horizon, are also excellent choices.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Bella-Dura®	BD Polyolefin	Varies	★★★★	★★★	★★★★	★★★★	★★★★★	★★★★★	\$\$\$

Ultraleather® Promessa® Outdoor (covered applications)	Polyurethane (polyester and rayon backing)	11.5 oz.	★	★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$\$\$

WIRE-HUNG CANOPIES & PERGOLAS

Bring extra shade and high style to your pergola with a canopy. Pergola canopies can be stationary or mounted on a slide-wire. Sliding pergola canopies with soft dips will collect water in the scallops if the fabric doesn't drain or a drainage hole isn't added. For these applications, we recommend using Phifertex Plus or Soltis mesh fabrics, and Sunbrella Decorative Shade or Sunbrella Marine Grade if a grommet is added for drainage. If code requires a fire-resistant fabric, consider Firesist.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Firesist®	Polyester (urethane/acrylic coating)	8.75 oz.	★★★	★★★★	★★★★	★★★★	★★★★	★★★	\$\$\$\$

AUTO COVERS

Keep your automobile clean and protected with a well-made cover. Whether in storage or just in your garage, a cover keeps dirt, dust, spills and other debris from damaging your car's paint job. Evolution Block-It protects your vehicle from damaging UV rays, blocking 99% of the sun's harmful rays. However, it is not very water resistant. For a highly water-resistant fabric, we recommend Softouch. Softouch's felt-like backing prevents scratches on painted, gel coated or other delicate surfaces.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Evolution® Block-It®	Polypropylene/Polyethylene	4.8 oz.	★★★	★★	★★★	★★★	★★	★★★	\$
Softouch®	Polyester (non-woven back)	11 oz.	★★	★★★★	★★★★	★★★	★★	★★★	\$\$

AWNINGS

Awnings provide shade outside your RV or camper so you can enjoy the sights and sounds of nature while staying cool and shaded. To sew a custom awning, we recommend fabrics with high UV and water resistance. High fade resistance and colorfastness will ensure your RV awning will hold up and look great even after years of sun exposure. Our top picks in awning fabrics are Sunbrella Marine and Awning fabrics, Herculite Riviera, Firesist, Stamoid, Top Notch 9, Top Gun 1S and Weblon Regatta.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Firesist®	Polyester (urethane/acrylic coating)	8.75 oz.	★★★	★★★★	★★★★	★★★★	★★★★	★★★	\$\$\$\$
Herculite® Riviera®	Vinyl-Laminate (PVC)	12.5 oz.	—	★★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$
Stamoid™ Light	Polyester (vinyl-coated, top side)	8.82 oz.	—	★★★★★	★★★★	★★★	★★★★	★★★	\$\$\$
Stamoid™ Top	Vinyl-Coated Polyester	12.64 oz.	—	★★★★★	★★★★	★★★★	★★★★	★★★★★	\$\$\$

Weblon Regatta®	Vinyl-Laminated Polyester	13 oz.	—	★★★★★	★★★★	★★★★	★★★★	★★★★★	\$\$

POP-UP ENCLOSURES

Pop-up enclosures for campers and trucks provide more room and create a canvas “tent-like” structure for your outdoor adventures. To fabricate a pop-up enclosure, you need a highly water resistant fabric that is also abrasion and UV resistant and colorfast. We recommend two brands for pop-up enclosures: Camper-Text and Firesist. Camper-Text is a vinyl-laminated polyester fabric that is waterproof, but lacks breathability. Firesist is breathable as well as highly water resistant.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Camper-Text™	Vinyl-Laminated Polyester	13 oz.	—	★★★★★	★★★★	★★★★	★★★★★	★★★★	\$\$
Firesist®	Polyester (urethane/acrylic coating)	8.75 oz.	★★★	★★★★	★★★★	★★★★	★★★★	★★★	\$\$\$\$

POWERSPORT UPHOLSTERY

For ATV and motorcycle seating, snowmobile and golf cart upholstery, and more, we offer an excellent selection of powersport upholstery vinyl fabrics. We recommend our entire lineup of Morbern vinyl fabrics, Sunbrella Horizon, EverSoft and Ultraleather Promessa Outdoor. These fabrics are all highly abrasion, water and UV resistant, as well as easy to clean. With a cold crack rating of -60°F, Morbern Allsport 360° 4-Way Stretch is an excellent choice for snowmobiles and all-weather vehicles. Ultraleather Promessa is a high-end, PVC-free faux leather with a pebble design and subtle sheen for added style and a high-end look. Foam backed vinyl headliner material rounds curves and adds a little padding to smooth out and soften sharp corners.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
EverSoft	Vinyl (on polyester tricot)	21.3 oz.	—	★★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$\$
EverSoft Channeling Fabric	Vinyl (on polyester, welded to backing fabric and filled with polyester fiberfill)	29.3 oz.	—	★★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$\$\$\$
Morbern® Allsport 360°	Vinyl (360°, 4-way stretch)	24 oz.	—	★★★★★	★★★★	★★★★	★★★	★★★★★	\$\$\$
Morbern® Bayside	Vinyl (on polyester)	22 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Morbern® Hexx	Vinyl (on polyester)	20.5 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Morbern® Hidden Creek	Vinyl (on polyester)	22 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Morbern® Sanibel	Vinyl (on polyester)	21 oz.	—	★★★★★	★★★★	★★★	★★★	★★★★★	\$
Morbern® Seabrook	Vinyl (on polyester)	20.5 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Morbern® Seabrook Channeling Fabric	Vinyl (on polyester, welded to backing fabric and filled with polyester fiberfill)	20.5 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$\$\$
Morbern® Seabrook Foam Backed Headliner	Vinyl (polyurethane foam backing)	20.5 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$\$
Morbern® Shock	Vinyl (on polyester)	20.5 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Morbern® Sundance	Vinyl (on polyester)	20.5 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★	\$\$
Naugahyde® All American	Vinyl (expanded on jersey knit)	19.2 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Naugahyde® Universal	Vinyl (expanded on jersey knit)	17.3 oz.	—	★★★★★	★★★★★	★★★★	★★★	★★★★★	\$\$
Sunbrella® Horizon	Vinyl (on polyester tricot)	28.8 oz.	—	★★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$\$\$
Ultraleather® Promessa® Outdoor	Polyurethane (polyester and rayon backing)	11.5 oz.	★	★★★★	★★★★★	★★★★	★★★★	★★★★★	\$\$\$\$\$

RV COVERS

When shopping for a high-quality RV cover fabric, you want to look for the same fabric qualities as a car cover fabric. Abrasion, water and UV resistance are all key factors to consider, as well as cleanability. Another very important fabric quality you'll want to keep in mind is fabric weight. As RVs are much larger than other vehicles, a lightweight cover will make your life so much easier when it's time to put on and remove the cover. Luckily, we have several lightweight cover fabrics that are well suited for this type of application.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Evolution® Block-It®	Polypropylene/Polyethylene	4.8 oz.	★★★	★★	★★★	★★★	★★	★★★	\$
Odyssey®	Polyester (clear-coated)	6.5 oz.	★	★★★★	★★★★	★★★	★★	★★★	\$
Sur Last®	Polyester (urethane-coated)	7 oz.	★★★	★★★★	★★★★	★★★	★★★	★★★	\$\$
Top Notch® 1S	Polyester (clear-coated)	7.5 oz.	★★	★★★★	★★★★	★★★★	★★★★	★★★	\$\$

RV SKIRTS

RV skirts provide important undercarriage protection against the snow, wind and rain. An RV skirt, also known as a wind skirt, attaches to the bottom of your RV or camper. Not only does an RV skirt add an extra storage area, skirting decreases heating and cooling costs as well. There is a lot of heat loss through the floor of RVs and RV skirting helps prevent this. RV skirt material needs to be waterproof, easy to clean, UV and abrasion resistant, and mold/mildew resistant. That's why we recommend only two brands of vinyl fabric for this highly demanding application: Shelter-Rite and Weblon Regatta.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Shelter-Rite®	Vinyl-Coated Polyester	18 oz.	—	★★★★★	★★★★★	★★★	★★★★	★★★★★	\$\$
Weblon Regatta®	Vinyl-Laminated Polyester	13 oz.	—	★★★★★	★★★★	★★★★	★★★★	★★★★★	\$\$

SUN SHADES

Keep your RV interior cooler and protected from the sun's harsh rays with a windshield sun shade. The key to a great sun shade is high UV blockage and protection while not inhibiting your view. That's why we recommend Phifertex and Soltis mesh fabrics for sun shades. Phifertex Standard offers a 70% shade factor and Phifertex Plus features a tighter weave with a 90% to 95% shade factor. Soltis 86 offers exceptional dimensional stability and blocks 86% of solar radiation without obstructing visibility.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Phifertex® Plus	Vinyl-Coated Polyester	16 oz.	★★★★★	★	★★★★	★★★★★	★★★★	★★★★	\$\$
Phifertex® Standard	Vinyl-Coated Polyester	11.3 oz.	★★★★★	★	★★★★	★★★★★	★★★★	★★★★	\$\$
Phifertex® Stripes	Vinyl-Coated Polyester	Varies	★★★★★	★	★★★★	★★★★★	★★★★	★★★★	\$\$
Soltis® 86	Vinyl-Coated High-Tenacity Polyester	11.2 oz.	★★★★★	★	★★★★	★★★★	★★★★	★★★★	\$\$\$

TARPS

Heavy-duty tarps are used on semi trucks, pickup trucks, yard trailers and more to cover and protect cargo. These tarps are fastened to the truck bed with webbing loops or grommets and bungee cords. For heavy-duty tarp material, we only recommend Shelter-Rite. This tough, waterproof vinyl-coated polyester boasts high tear and tensile strength and exceptional weather resistance.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Shelter-Rite®	Vinyl-Coated Polyester	18 oz.	—	★★★★★	★★★★★	★★★	★★★★	★★★★★	\$\$

TONNEAU COVERS

At 77 inches wide, our Tonneau Black Cover Fabric is perfect for fabricating a seamless tonneau cover for all sizes of pickup trucks. Tonneau fabric is shrink resistant, long-lasting and has incredibly low stretch, so it will remain taut and tight-fitting when fitted to your truck bed. With an incredibly high tear and tensile strength, in addition to being completely waterproof with superior UV resistance, this fabric will look great and last for years.

FABRIC	MATERIAL	WEIGHT (PER SQ. YD.)	BREATHABILITY	WATER RESISTANCE	ABRASION RESISTANCE	UV RESISTANCE	COLORFASTNESS	CLEANABILITY	PRICE
Tonneau	Vinyl-Laminated Polyester	18 oz.	—	★★★★★	★★★★★	★★★★	★★★★★	★★★★	\$
